Executive Leadership Team

Meeting pack

Date	Tuesday 15 December 2026
Time	9.00 am to 12.30 pm
Venue	Boardroom, Level 4, 22 Mangrove Street, Port Calloway, and Teams
Meeting no.	ELT 2026/12
Secretariat	Office of the Managing Director, elt.secretariat@example.org

CONFIDENTIAL. This pack is for members of the Executive Leadership Team and invited attendees only.

Order of business

Executive Leadership Team, meeting ELT 2026/12, Tuesday 15 December 2026, 9.00 am.

No.	Item	Owner	Action	Time	Page
1	Opening, Acknowledgement of Country, apologies	Chair	Note	9.00	3
2	Declarations of interest	Chair	Note	9.05	3
3.1	Minutes of the meeting held 17 November 2026	Chair	Approve	9.05	4
3.2	Action log	Secretariat	Note	9.10	6
4.1	Managing Director's report	C. Lowrie	Note	9.15	7
5.1	Quarterly operational performance report, Q1 FY2027	C. Lowrie	Note	9.30	10
5.2	Enterprise risk report	R. Atherton	Endorse	9.50	15
5.3	Finance report, November 2026	D. Okafor	Note	10.10	20
	Morning tea			10.30	
6.1	Northern depot consolidation and fleet electrification, Stage 1	P. Ramanathan	Approve	10.45	25
6.2	People and safety report	G. Ellery	Note	11.25	33
7.1	Customer and regulatory update (late paper)	S. Brennan	Note	11.45	38
7.2	Major projects status report	P. Ramanathan	Note	12.00	42
8.1	Board meeting debrief, 4 December 2026	C. Lowrie	Verbal	12.10	-
8.2	Christmas and New Year on-call arrangements	L. Fairbairn	Verbal	12.15	-

Starred items are for discussion. All other items for noting are taken as read unless a member asks for discussion before 5 pm on Monday 14 December. Starred: 5.1, 6.1, 7.1.

Order of business (continued)

No.	Item	Owner	Action	Time	Page
9.1	Enterprise agreement negotiations update (confidential)	G. Ellery	Note	12.20	46
10	Confirm actions and matters for communication	Chair	Note	12.25	-
11	Meeting evaluation and close	Chair	Note	12.28	-

Members

- Catherine Lowrie, Managing Director (Chair)
- Daniel Okafor, Chief Financial Officer
- Priya Ramanathan, Executive General Manager Infrastructure Delivery
- Graham Ellery, Executive General Manager People and Safety
- Sophie Brennan, Executive General Manager Customer and Regulation
- Rhys Atherton, General Counsel and Company Secretary
- Leanne Fairbairn, Executive General Manager Network Operations

In attendance: Mei Lin Tan, Manager Strategy and Performance (item 5.1); Josh Kirkland, Program Manager Depots (item 6.1); Secretariat.

Quorum: a majority of members, including the Managing Director or a delegate.

Apologies

None received at the time of issue.

Standing register of interests

Member	Interest	Action
Daniel Okafor	Director, Port Calloway Community Credit Union	Leave the room for any banking item
Sophie Brennan	Member, state Water Industry Customer Council	Noted
Priya Ramanathan	Spouse employed by a civil contractor on the panel	Not to assess panel tenders

Minutes of the Executive Leadership Team meeting held 17 November 2026

Meeting ELT 2026/11. Boardroom, Port Calloway, 9.00 am to 12.40 pm.

Present: Catherine Lowrie (Chair), Daniel Okafor, Priya Ramanathan, Graham Ellery, Sophie Brennan, Rhys Atherton, Leanne Fairbairn.

Apologies: nil. Declarations: no new interests declared.

1. Minutes and actions

The minutes of 20 October 2026 were confirmed as a true and accurate record. The action log was noted.

2. Managing Director's report

The Managing Director noted the Board's focus on field safety and on the cost of the capital programme.

The ELT noted the report.

3. Northern depot consolidation: early concept

The EGM Infrastructure Delivery presented a concept to merge the Ashby and Kurrajong Flat depots into one Northern depot.

The CFO asked that any depot proposal show whole-of-life costs, including charging and power supply.

The EGM Network Operations asked that crews keep a working depot through any move.

The ELT agreed the concept should return as a full paper after the Gate 2 review.

Minutes, 17 November 2026 (continued)

4. Operational scorecard: use of rankings

The Managing Director proposed a firmer rule for the divisional ranking in the quarterly scorecard.

Resolution ELT 2026/41. That the ELT adopts the following rule from the Q1 FY2027 report:

- A division ranked last for two quarters in a row brings a recovery plan to the next meeting.
- The executive who owns that division explains the result at that meeting.
- A division ranked first shares what worked, so other divisions can adopt it.

Moved: C. Lowrie. Carried.

5. Enterprise risk report

The General Counsel noted the Ashby depot lease and the confined space compliance items. The ELT endorsed the report.

6. People and safety

The EGM People and Safety reported two lost-time injuries in Field services in October.

The ELT asked for training dates for 2027 to come to the December meeting.

7. Other business

Nil. The meeting closed at 12.40 pm. Next meeting 15 December 2026.

Confirmed as a true and accurate record: _____ Chair Date: _____

Action log

Open and recently closed actions. Owner initials as in the agenda.

Ref	Action	Owner	Due	Status
A-2026-29	Report on customer call wait times at the November peak	S. Brennan	Nov 2026	Closed
A-2026-33	Review on-call allowance for Field services crews	G. Ellery	Dec 2026	In progress
A-2026-36	Draft 2027 mandatory training calendar to ELT	G. Ellery	Dec 2026	Closed, see item 6.2
A-2026-38	Depot proposal to pass Gate 2 review by the Investment Review Panel before return to ELT	P. Ramanathan	Dec 2026	In progress
A-2026-39	Whole-of-life cost model for Northern depot	D. Okafor	Dec 2026	In progress
A-2026-40	Field services: brief on missed attendance targets	L. Fairbairn	Dec 2026	Carried from October
A-2026-41	Apply resolution ELT 2026/41 in the Q1 FY2027 scorecard	M. L. Tan	Dec 2026	Closed, see item 5.1
A-2026-42	Water quality audit response to the regulator	S. Brennan	Jan 2027	Not started

Actions carried for more than two meetings are shown in the Managing Director's report.

Item 4.1

Managing Director's report

Paper type	For noting
Sponsor	Catherine Lowrie, Managing Director
Author	Office of the Managing Director
Record no.	D26/48811

Purpose

To brief the ELT on matters across the business since the November meeting.

Recommendation

That the ELT notes the Managing Director's report.

Summary

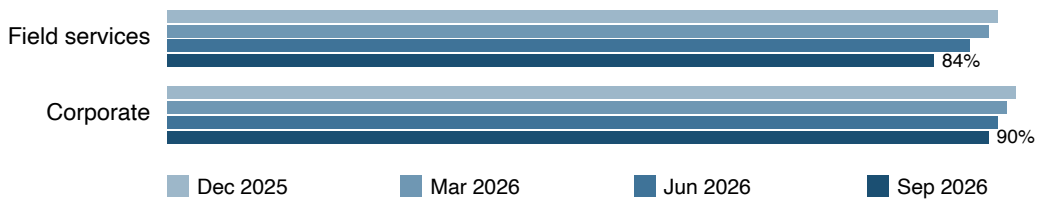

- Drinking water compliance stayed above 99.9 per cent for the quarter.
- Lost-time injuries in Field services rose, and safety is now a standing Board item.
- The capital programme is 4 per cent behind its spend profile for the year to date.
- The Board asked for a firm plan for the northern depots before its February meeting.

Corporate scorecard, November 2026

Measure	Target	Nov 2026	Status
Drinking water samples compliant	99.9%	99.98%	Green
Unplanned water interruptions per 1,000	12.0	10.4	Green
Sewage overflows to the environment	4	6	Red
Field jobs attended within target time	90%	84%	Amber
Customer satisfaction (index)	75	76	Green
Lost-time injury frequency rate	2.0	3.4	Red
Operating result, year to date	$5.1M	$7.5M	Green
Capital spend against profile	100%	96%	Amber

Status bands: Green on or better than target; Amber within 10 per cent of target; Red worse than that.

Field jobs attended within target time, by quarter (%)

Managing Director's report (continued)

Key matters

The Board met on 4 December. It approved the half-year statement of corporate intent and asked for monthly safety reporting.

I support the Northern depot consolidation in principle, because two old depots cost us more each year.

My condition is that crews never lose a working base during the move.

The water quality audit by the state regulator found no non-compliance. A short report on the audit follows at item 7.1.

Actions carried more than two meetings

- A-2026-33 on-call allowance review (People and Safety).

Engagement

I visited the Bellcourt and Ridgeview treatment plants and the Ashby depot in November.

Item 5.1

Quarterly operational performance report, Q1 FY2027

Paper type	For noting
Sponsor	Catherine Lowrie, Managing Director
Author	Mei Lin Tan, Manager Strategy and Performance
Record no.	D26/49102

Purpose

To report operational performance for the quarter to 30 September 2026, with the first divisional ranking under resolution ELT 2026/41.

Recommendation

That the ELT notes the report and the divisional ranking.

Background

The scorecard has 14 measures. Six operating divisions are ranked on a combined index of safety, maintenance and service results.

This is the second quarter the ranking has been shared with the ELT.

Consultation

Divisional managers checked their own data. Field services data was confirmed on 2 December.

Scorecard measures, quarter to 30 September 2026

Measure	Previous quarter	This quarter	Target	Status
Drinking water samples compliant	99.96%	99.98%	99.9%	Green
Treatment plant availability	98.1%	98.7%	97.5%	Green
Sewer main breaks and chokes per 100 km	14.2	15.9	16.0	Green
Sewage overflows to the environment	3	6	4	Red
Field jobs attended within target time	88%	84%	90%	Amber
Planned maintenance completed on time	82%	79%	85%	Amber
Fleet availability	94%	93%	92%	Green
Lost-time injury frequency rate	2.6	3.4	2.0	Red
Customer complaints per 1,000 connections	3.1	2.9	3.5	Green

Status is set by the band rules in Appendix A of the scorecard manual.

Field jobs attended within target time stays Amber but fell 4 points.

Divisional ranking, quarter to 30 September 2026

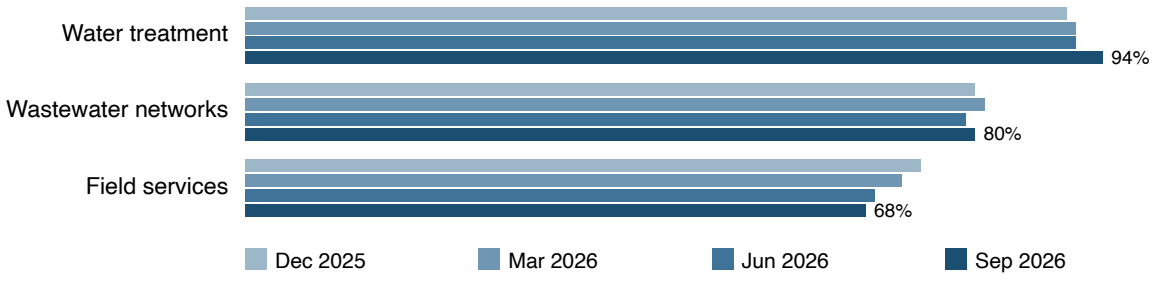

Combined index out of 100: safety 40 per cent, planned maintenance 30 per cent, service targets 30 per cent.

Division	Executive	Safety	Maintenance	Service	Index	Rank
Water treatment	L. Fairbairn	96	91	94	93.8	1 of 6
Laboratory services	S. Brennan	94	88	90	91.0	2 of 6
Capital works	P. Ramanathan	88	86	85	86.5	3 of 6
Customer operations	S. Brennan	92	74	86	84.8	4 of 6
Wastewater networks	L. Fairbairn	81	77	80	79.5	5 of 6
Field services	L. Fairbairn	62	71	73	68.0	6 of 6

Rank 1 is the best result. Field services was also ranked 6 of 6 in the quarter to 30 June 2026.

Water treatment moved from rank 2 to rank 1.

Divisional index by quarter

Commentary

Field services

Two lost-time injuries and a rise in jobs reached late drove the result.

Vacancies in the northern crews and travel time from Ashby are the main causes named by the division.

No recovery plan was received by the closing date for this pack.

Water treatment

All four plants met every compliance sample. Operator-led filter checks cut unplanned outages by a third.

The division moved to rank 1 for the first time.

Wastewater networks

Six overflows followed two storm events in September. Three were at the Kingfisher Creek pump station.

Data notes

Safety data closes on the 10th of the following month. Ties share a rank.

Attachment 1: measure detail by month

Measure	Jul	Aug	Sep	Quarter
Field jobs attended within target time	86%	85%	82%	84%
Planned maintenance on time	80%	79%	78%	79%
Sewer chokes	41	38	52	131
Water main breaks	22	19	24	65
Odour complaints	9	7	14	30
Fleet availability	94%	93%	92%	93%
Overtime hours, Field services	1,920	2,110	2,380	6,410
Overtime hours, Wastewater networks	1,050	990	1,210	3,250

Plant	Samples	Compliant	Outages
Bellcourt WTP	1,204	1,204	1
Ridgeview WTP	988	988	0
Kesterton WTP	640	640	2
Mullet Bay WTP	412	411	0

Item 5.2

Enterprise risk report

Paper type	For endorsement
Sponsor	Rhys Atherton, General Counsel and Company Secretary
Author	Risk and Compliance Team
Record no.	D26/49230

Purpose

To present the strategic risk register and proposed residual ratings for endorsement.

Recommendation

That the ELT endorses the strategic risk register and the proposed residual ratings for referral to the Audit and Risk Committee.

Summary

- Two risks are rated High after treatment: SR-02 workforce safety and SR-05 ageing assets.
- SR-09 depot transition is a new risk this quarter.
- One compliance obligation falls due in the first half of 2027 and needs a plan (page 19).

Residual risk heat map, December 2026

Likelihood (rows) by consequence (columns). Ratings are after current controls.

	Insignificant	Minor	Moderate	Major	Severe
Almost certain					
Likely			SR-08	SR-02	
Possible		SR-06	SR-01	SR-05, SR-09	
Unlikely			SR-03	SR-04	
Rare					SR-07

Low Medium High Extreme

Rating = likelihood score x consequence score. Low 1 to 4, Medium 5 to 9, High 10 to 14, Extreme 15 to 25.

Strategic risk register

Ref	Risk	Owner	Current residual	Proposed residual	Trend
SR-01	Drinking water quality incident	EGM Network Operations	**Medium**	**Medium**	Steady
SR-02	Serious injury to a field worker	EGM People and Safety	**High**	**High**	Rising
SR-03	Cyber attack on operational technology	Chief Financial Officer	**Medium**	**Medium**	Steady
SR-04	Capital programme cost overrun	EGM Infrastructure Delivery	**Medium**	**Medium**	Steady
SR-05	Failure of ageing treatment and pump assets	EGM Network Operations	**High**	**High**	Rising
SR-06	Sewage overflow causes environmental harm	EGM Network Operations	**Medium**	**Medium**	Rising
SR-07	Loss of key customer data	EGM Customer and Regulation	**Low**	**Low**	Falling
SR-08	Prolonged drought reduces supply	EGM Network Operations	**Medium**	**Medium**	Steady
SR-09	Depot transition disrupts field response	EGM Infrastructure Delivery	-	**Medium**	New

Controls for each risk are listed in the full register, held by Risk and Compliance.

Changes and emerging risks

SR-09 depot transition (new)

The Ashby depot lease ends on 30 June 2027.

The landlord has confirmed the Ashby lease cannot be extended past 30 June 2027.

Field services crews must have a working base from 1 July 2027.

The proposed residual rating of Medium assumes the new Northern depot opens on time.

SR-05 ageing assets

The asset condition review found more pump stations at condition 4 than planned. Details are in the major projects report.

Rationale for change

SR-02 stays High after two lost-time injuries. SR-07 falls to Low after the data clean-up.

General Counsel's view

I do not support a depot plan that relies on a lease extension, because none is available.

Compliance obligations calendar, January to June 2027

Obligation	Area	Due	Status
Drinking water quality annual report	Water treatment	31 Jan 2027	On track
Environmental licence annual return	Wastewater networks	28 Feb 2027	On track
Heavy vehicle registration renewals	Fleet and depots	31 Mar 2027	On track
Confined space entry certificates renewed	Wastewater networks	30 Apr 2027	Monitor
Dam safety inspection, Bellcourt	Water treatment	31 May 2027	On track
Trade waste agreements review	Customer operations	30 Jun 2027	On track

Confined space entry certificates for 112 wastewater staff expire on 30 April 2027.

A worker without a current certificate may not enter a confined space.

Status Monitor: a plan is needed to finish renewals before the due date.

Item 5.3

Finance report, November 2026

Paper type	For noting
Sponsor	Daniel Okafor, Chief Financial Officer
Author	Financial Planning and Analysis
Record no.	D26/49377

Purpose

To report the financial result for the five months to 30 November 2026.

Recommendation

That the ELT notes the finance report.

Summary

- The operating result is $7.5M, $2.4M (47.1%) favourable to budget year to date.
- Revenue is $1.1M favourable from higher water use in a dry spring.
- Field services overtime is $0.6M unfavourable year to date.
- Capital spend is $41.2M, $1.7M (4.0%) behind profile.

Operating statement, year to date

$ million	Actual YTD	Budget YTD	Variance	Full-year budget
Water charges	62.4	61.5	0.9	148.0
Sewerage charges	48.9	48.7	0.2	116.9
Developer charges	6.1	6.2	(0.1)	14.8
Other revenue	3.0	2.9	0.1	7.0
Total revenue	120.4	119.3	1.1	286.7
Employee costs	(38.2)	(37.9)	(0.3)	(91.0)
Overtime, Field services	(2.1)	(1.5)	(0.6)	(3.6)
Materials and contractors	(29.6)	(31.4)	1.8	(75.4)
Energy	(8.8)	(9.1)	0.3	(21.9)
Depreciation	(26.4)	(26.4)	0.0	(63.4)
Other expenses	(7.8)	(7.9)	0.1	(18.9)
Operating result	7.5	5.1	2.4	12.5

Figures in brackets are costs or unfavourable variances.

Capital expenditure by programme

Programme	Actual YTD	Budget YTD	Variance	Full year
Water treatment renewals	8.4	8.9	(0.5)	22.0
Water mains renewals	11.2	10.8	0.4	26.5
Sewer pump stations	7.9	8.6	(0.7)	21.0
Sewer mains relining	6.3	6.5	(0.2)	15.2
Fleet replacement	1.8	2.1	(0.3)	5.4
Depots and facilities	0.9	1.2	(0.3)	3.1
Digital and technology	4.7	4.8	(0.1)	11.6
Total	41.2	42.9	(1.7)	104.8

$ million. The depots and facilities budget for FY2027 does not include the Northern depot.

Stage 1 of the Northern depot would need a budget change approved by the Board.

Funding and the CFO's view

Cash and debt

Cash at 30 November was $38.6M. Borrowings are $612M against a limit of $680M set by the Treasurer.

Northern depot

Finance has not yet received the Gate 2 business case or the whole-of-life cost model (action A-2026-39).

Finance supports Stage 1 only after the Investment Review Panel has endorsed the business case.

The $14.8M would be funded by moving $9.0M from sewer pump station renewals and new borrowing of $5.8M.

Outlook

The full-year forecast operating result is $13.9M, $1.4M better than budget.

Attachment 1: operating cost by division, year to date

Division	Actual	Budget	Variance	FTE
Water treatment	9.6	9.9	0.3	88
Wastewater networks	11.8	11.6	(0.2)	131
Field services	12.9	12.0	(0.9)	96
Fleet and depots	4.2	4.1	(0.1)	22
Laboratory services	2.3	2.4	0.1	24
Customer operations	7.7	7.9	0.2	112
Capital works	3.4	3.6	0.2	41
Corporate services	14.1	14.6	0.5	136

$ million except FTE (full-time equivalent staff). Field services includes $2.1M of overtime.

Item 6.1

Northern depot consolidation and fleet electrification, Stage 1

Paper type	For decision
Sponsor	Priya Ramanathan, Executive General Manager Infrastructure Delivery
Author	Josh Kirkland, Program Manager Depots
Record no.	D26/49518

Purpose

To seek approval of Stage 1 of the Northern depot programme.

Recommendation

That the ELT:

- approves Stage 1 capital of $14.8 million to build the Northern depot at 14 Kiln Road, Bellgrove;
- approves 38 electric light vehicles to replace diesel vehicles at Ashby and Kurrajong Flat; and
- endorses the business case for the Board meeting of 18 February 2027.

Summary

The Northern depot replaces two old depots with one site closer to growth areas in the north.

Field services and Wastewater networks crews would move in July 2027.

Background

Ashby depot (leased) and Kurrajong Flat depot (owned) house 74 field staff and 51 vehicles.

Both sites are more than 40 years old. Kurrajong Flat floods in a one-in-ten-year storm.

The ELT discussed an early concept on 17 November 2026 and asked for a full paper.

The Bellgrove site was bought in 2024 and is zoned for a works depot.

Timeline

Milestone	Date
Board approval	18 February 2027
Construction start	March 2027
Practical completion	June 2027
Crews move in	July 2027
Ashby depot handed back	30 June 2027
Kurrajong Flat sold	December 2027

The programme assumes the electricity supply upgrade at Bellgrove is ready by May 2027.

Options

Option	Capital	Ten-year cost	Comment
A. New Northern depot with electric fleet (recommended)	$14.8M	$31.2M	One site, lower running cost
B. New Northern depot with diesel fleet	$11.6M	$33.9M	No power upgrade needed
C. Refurbish Kurrajong Flat, relocate Ashby crews to it	$6.9M	$35.4M	Flood risk stays
D. Do nothing, seek a new lease near Ashby	$1.2M	$38.0M	No suitable lease found

Option A has the lowest ten-year cost. It depends on charging for 38 vehicles from opening day.

Option B can open without the power upgrade but costs $2.7M more over ten years.

Infrastructure Delivery recommends option A.

Strategic alignment and financial implications

Strategic alignment

Supports Strategy 2030 goals 2 (reliable services) and 4 (net zero operations by 2035).

Financial implications

Stage 1 capital is $14.8M. It is not in the FY2027 capital budget.

Charging infrastructure needs a 1.5 MVA supply upgrade by Tarrin Energy Networks.

The paper assumes the supply upgrade costs $0.9M and is included in the $14.8M.

Operating savings of $1.6M a year start in FY2028.

Policy and legislation

Capital Investment Framework (Attachment 2). Land Use Planning Act.

Risks

Identified risk	Untreated	Treatment	Treated
Construction delay past June 2027	**High**	Early works contract, weekly reporting	**Medium**
Power upgrade late	**High**	Early application to the distributor	**Medium**
Crew travel times rise for southern jobs	**Medium**	Keep a satellite yard at Ashby until 2028	**Low**
Cost overrun	**Medium**	10 per cent contingency	**Low**

Consultation

- Network Operations: crew rosters and travel times.
- Finance: capital estimate.
- Fleet and depots: vehicle choice.
- Unions: briefing planned for February 2027.

Views of the sponsor

I recommend option A. It is the only option that meets our net zero target and closes both old sites.

Attachment 1: staging and crew moves

Team	Staff	From	Move date
Field services north crews	38	Ashby	1 July 2027
Field services east crews	12	Kurrajong Flat	8 July 2027
Wastewater networks maintenance	18	Kurrajong Flat	15 July 2027
Fleet workshop	6	Ashby	1 July 2027

The satellite yard at Ashby in the risk table would need a new lease. None has been sought.

Vehicle class	Diesel today	Electric Stage 1	Charger
Utility (ute)	31	24	22 kW AC
Van	12	10	22 kW AC
Light truck	8	4	50 kW DC

Attachment 2: Capital Investment Framework (extract)

Approved by the Board, version 4.2, March 2026. Section 5: approval gates.

Gate	Purpose	Who endorses	When
Gate 0	Strategic need	Sponsor executive	Before concept
Gate 1	Options assessment	Investment Review Panel	Before detailed design
Gate 2	Business case	Investment Review Panel	Before ELT approval
Gate 3	Contract award	Delegated officer	Before contract

5.3 A project over $10 million must pass Gate 2 before the ELT approves it.

5.4 The Investment Review Panel report is attached to the ELT paper.

5.5 A project not in the approved capital budget needs a Board budget change.

Our ref: NC-26-08817

Re: Connection application, 14 Kiln Road, Bellgrove (1.5 MVA)

Thank you for your application of 9 October 2026.

The supply needs a new feeder from the Bellgrove zone substation.

The feeder is in our works programme for the 2027-28 year.

The site cannot be energised at 1.5 MVA before March 2028.

A temporary supply of up to 200 kVA can be offered from July 2027.

The estimated cost to you is $2.3 million, not including GST.

Please contact our connections team to accept the offer.

Yours sincerely

A. Pellegrino

A. Pellegrino
Manager, Major Connections

Item 6.1, Attachment 3. Received by Infrastructure Delivery 7 December 2026.

Item 6.2

People and safety report

Paper type	For noting
Sponsor	Graham Ellery, Executive General Manager People and Safety
Author	People and Safety
Record no.	D26/49602

Purpose

To report safety, workforce and training results, and to present the 2027 mandatory training calendar (action A-2026-36).

Recommendation

That the ELT notes the report and the 2027 training calendar.

Summary

- Lost-time injury frequency rate is 3.4 against a target of 2.0.
- Both lost-time injuries this quarter were in Field services (manual handling).
- The 2027 training calendar moves several courses later to fit the training budget.

Safety by division, quarter to 30 September 2026

Division	Lost-time injuries	Medical treatment	Near misses	Hazard reports
Water treatment	0	1	14	61
Wastewater networks	0	3	22	48
Field services	2	5	9	17
Fleet and depots	0	1	4	12
Capital works	0	2	18	40
Laboratory services	0	0	3	9
Customer operations	0	0	1	6

Field services reports few near misses for its size, which suggests under-reporting.

Mandatory training calendar 2027

Course	Staff	Planned	Previous plan
Fire warden	140	February 2027	February 2027
Manual handling	410	March 2027	February 2027
Chlorine safety	88	April 2027	April 2027
Traffic control	96	May 2027	March 2027
Confined space entry refresher	112	July 2027	March 2027
Working at heights	160	August 2027	August 2027
First aid	380	September 2027	September 2027

Moving courses later saves $0.3M in FY2027. Training providers confirmed the new dates.

Network Operations was not consulted on the new dates.

Workforce

Division	Positions	Filled	Vacant	Overtime % of hours
Water treatment	92	88	4	6%
Wastewater networks	138	131	7	9%
Field services	110	96	14	18%
Fleet and depots	24	22	2	5%

Field services has 14 vacancies, 10 of them in the northern crews based at Ashby.

Exit interviews name overtime and the condition of the Ashby depot.

Union consultation on the Northern depot crew moves has not started.

The enterprise agreement requires consultation before any change of work location.

Attachment 1: overtime by month, Field services

Month	Hours	Cost	Callouts
Jun 2026	798	$455k	206
Jul 2026	610	$388k	150
Aug 2026	715	$465k	211
Sep 2026	762	$420k	155
Oct 2026	713	$405k	174
Nov 2026	753	$504k	199

Crew	Base	Staff	Vacant
North 1	Ashby	14	4
North 2	Ashby	13	3
North 3	Ashby	11	3
East	Kurrajong Flat	12	1
Central	Port Calloway	24	2
South	Mullet Bay	22	1

Item 7.1

Customer and regulatory update

LATE PAPER

Paper type	For noting
Sponsor	Sophie Brennan, Executive General Manager Customer and Regulation
Author	Customer and Regulation
Record no.	D26/49711

Purpose

To update the ELT on customer results, the regulator and a new funding round.

Recommendation

That the ELT notes the update and asks Network Operations to decide whether to apply to the State Water Resilience Fund.

Summary

- Customer satisfaction is 76, above target.
- The state regulator's water quality audit found no non-compliance.
- A State Water Resilience Fund round opened on 1 December 2026.

Complaints, quarter to 30 September 2026

Category	Previous quarter	This quarter	Trend
Billing	212	188	Falling
Water pressure and supply	96	104	Rising
Sewer odour	41	58	Rising
Field crew conduct	12	9	Falling
Late attendance	38	61	Rising
Water quality (taste, colour)	27	19	Falling

Late attendance complaints rose 61 per cent. Most came from the northern suburbs served from Ashby.

The Ombudsman referred four complaints, all about late attendance.

State Water Resilience Fund, round 3

The state government opened round 3 on 1 December 2026.

Grants of up to $2.5 million fund treatment plant resilience upgrades.

Eligible work includes backup power, dosing systems and flood protection.

Applications close on 26 February 2027. A co-contribution of 25 per cent is needed.

Coralline Coast Water received $1.1 million in round 2 for Ridgeview WTP.

No application owner has been named for round 3.

Regulator: drinking water quality audit

The state regulator audited our drinking water quality management plan in October 2026.

The audit found no non-compliance and two opportunities for improvement.

The auditor named Water treatment's operator-led filter checks as good practice for other utilities.

The regulator asked us to present the filter checks at the state water quality forum in March 2027.

Finding	Type	Owner	Due
Update the incident protocol contact list	Improvement	Water treatment	Feb 2027
Record sampling chain of custody digitally	Improvement	Laboratory services	Jun 2027

Item 7.2

Major projects status report

Paper type	For noting
Sponsor	Priya Ramanathan, Executive General Manager Infrastructure Delivery
Author	Project Management Office
Record no.	D26/49744

Purpose

To report the status of capital projects over $2 million.

Recommendation

That the ELT notes the report.

Summary

- Of 18 projects, 12 are On track, 4 Monitor and 2 Off track.
- Kingfisher Creek pump station upgrade is Off track on cost.
- The asset condition review (Attachment 1) is complete.

Project status (1 of 2)

Project	Area	Budget $M	Status
Bellcourt WTP filter renewal	Water treatment	6.2	On track
Ridgeview WTP backup generator	Water treatment	2.4	On track
Kesterton clear water tank	Water treatment	3.8	Monitor
Kingfisher Creek pump station upgrade	Wastewater networks	9.6	Off track
Northern trunk sewer relining	Wastewater networks	7.1	On track
Mullet Bay outfall repair	Wastewater networks	2.9	Monitor
Pump station telemetry renewal	Wastewater networks	4.4	On track
Port Calloway mains renewal, stage 3	Capital works	8.3	On track
Bellgrove reservoir roof	Capital works	2.6	On track
Smart meter pilot	Customer operations	3.2	Monitor

Project status (2 of 2)

Project	Area	Budget $M	Status
Billing system upgrade	Customer operations	5.7	Off track
Fleet replacement FY2027	Fleet and depots	5.4	On track
Laboratory instrument renewal	Laboratory services	2.1	On track
Operational technology security	Corporate services	3.9	On track
Ridgeview raw water pipeline	Capital works	11.4	On track
Coastal mains, Calloway Heads	Capital works	4.0	Monitor
Sewer odour control, Kingfisher	Wastewater networks	2.2	On track
Records digitisation	Corporate services	2.0	On track

Kingfisher Creek: tender prices came in 22 per cent over estimate. A revised budget returns in February.

Billing system upgrade: vendor delay of four months.

Attachment 1: asset condition review, critical assets

Condition 1 is very good and condition 5 is very poor. Remaining life is the engineer's estimate.

Asset	Area	Condition	Remaining life	Renewal funded
Bellcourt WTP chlorine dosing system	Water treatment	4	1 year	FY2029
Ridgeview WTP high-lift pumps	Water treatment	2	12 years	Not needed
Kingfisher Creek pump station	Wastewater networks	4	2 years	FY2027
Mullet Bay pump station	Wastewater networks	3	6 years	FY2030
Ashby depot workshop	Fleet and depots	4	2 years	Not funded
Kesterton WTP clarifier	Water treatment	3	8 years	FY2031

Assets at condition 4 with renewal more than a year away are listed for the next capital review.

Item 9.1: Enterprise agreement negotiations update

CONFIDENTIAL. This paper is provided to members separately and is not included in the general pack.

Sponsor: Graham Ellery, Executive General Manager People and Safety.

Members who need the paper may ask the Secretariat.

Acronyms and terms

Term	Meaning
ELT	Executive Leadership Team
EGM	Executive General Manager
WTP	Water treatment plant
LTIFR	Lost-time injury frequency rate, per million hours worked
MVA	Megavolt-ampere, a measure of electrical supply
kVA	Kilovolt-ampere, one thousandth of an MVA
FTE	Full-time equivalent staff
Gate 2	Business case review by the Investment Review Panel
RAG	Red, amber, green status
YTD	Year to date (financial year from 1 July)
Condition 4	Poor: major work needed within two years

Close of meeting

Item 10: confirm actions and matters for communication

The Secretariat reads back new actions. Members agree what is shared with staff.

Item 11: meeting evaluation

Members rate the meeting and the quality of papers in the one-minute survey.

Next meeting

Tuesday 2 February 2027, 9.00 am, Boardroom, Port Calloway. Papers close Monday 25 January 2027.

Coralline Coast Water and every person in this pack are fictional. Prepared for a demonstration.
